UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION V

DATE: NOV 29 1990

SUBJECT: USS Lead Refinery
IND 047 030 226

FROM: Joseph M. Boyle, Acting Chief
RCRA Enforcement Branch (5HR-12)

TO: Michael J. Mikulka, Chief
Compliance Section (5 WCC)

This is to update you on RCRA developments regarding the subject facility.

As we discussed during the October meeting of the Geographic Enforcement Initiative, the Office of RCRA has referred the subject facility to the Office of CERCLA for appropriate action.

Based on information obtained from the Indiana Department of Environmental Management (IDEM) USS Lead, pursuant to the Partial Interim Agreed Order with IDEM of April 10, 1990, submitted a closure plan and site assessment plan to IDEM on August 7, 1990. IDEM issued a Notice of Deficiency (NOD), with respect to the closure plan, on November 16, 1990. The closure plan addresses those solid waste management units which both USS Lead and IDEM agree to be hazardous waste management units. The Order requires USS Lead to submit a modified plan, addressing the elements of the NOD, within 30 days of receipt of the NOD. The site assessment plan is still undergoing review by IDEM.
